PNW Resilience Challenge

AGENDA

Big picture

The problem - making our voice matter

Alliance makeup, vision, and goals

Our Policy Solution

Clean Energy, Forest, and Water investment

Ensuring a Just and Equitable Transition

Benefits of Climate Action in WA

Our role as enlightened climate justice activists

Feedback, Q&A, and dialouge

Voting Matters

- Working to build a new, diverse, equitable and inclusive climate movement
- Creating a scalable model for taking bold, equitable climate action
- Planning to file a comprehensive climate change policy as a ballot initiative before WA voters in 2018

Heat waves: differential impacts on 90°+ days

salaried office job
\$64,000/y (\$246/day)

- Often not exposed to heat at workplace
- Often can work from home
- Receives sick/safe leave
- Will not lose job if misses shift

Construction
\$41,000/y (\$147/day)

- Exposed to heat at workplace
- Cannot work from home
- Receives sick/safe leave
- Will not lose job if misses shift

hourly retail
\$31,200/y (\$120/day)

- Often not exposed to heat at the workplace
- Cannot work from home
- Often does not receive sick/safe leave
- Might lose job if misses shift

agricultural worker
\$33,400/y (\$128/day)

- Exposed to heat at workplace
- Cannot work from home
- Often does not receive sick/safe leave
- Might lose job if misses shift

The Cost to our Health

- Air quality: industry, transportation, wildfires
- Water quality
- Heat-related health impacts

Kira Leeper, 27, adjusts a mask on her son, Kamrin, 11 weeks, as they wait for a bus inside the STA Plaza.

Targeted Investments in Disproportionately Impacted

More than one-third of investments must benefit Disproportionately Impacted Communities.

Identified by cumulative impacts of:

- Environmental burdens
- Socio-economic barriers
- Health disparities

Sovereignty and Benefits to Tribes and Indigenous

- Sovereignty
- Ten percent of investments endorsed by Tribes
- Coastal relocation assistance
- Wildfire prevention and preparedness

Accountability & Oversight

Economic and Environmental Justice Panel

- Make recommendations for investments in disproportionately impacted communities
- Monitor impacts of emissions reduction
- Work closely with Oversight Board

Oversight Board

- Oversee implementation, including investments
- Minimum 35% seats for Economic and Environmental Justice panel

Climate Action Policy Benefits in WA

- Climate Change Preparedness
- Mitigation of Heat-Trapping, Ocean Acidifying, Carbon Emissions
- Environmental and Economic Improvement In Disproportionately Impacted Communities
- Local Job Creation
