

Bachelor of Science in Nursing (BSN) Prerequisite Courses

College level cumulative and prerequisite GPA must be 3.0 or higher.

A minimum grade of 2.0/C is required in each prerequisite.

Prerequisite time limits apply to the anticipated program start date. (Example: For a student starting the program in Fall 2021, the Statistics prerequisite must have been completed in 2016 or more recently.)

Seven of 10 prerequisite courses must be completed by end of Fall term including at least one Core science (A&P I, A&P II and Microbiology) and one math course (College Algebra for Business/Precalculus or Statistics).

No more than two courses can be repeated unless out of date. Please provide a supplemental written statement explaining the reason for the repeated course.

Prerequisites are subject to change.

Majors level cellular/molecular courses equivalent to BIOL 1610/11 at SU also satisfy the BIOL 1100 requirement.

Majors level general chemistry to CHEM 1500/01 or higher at at SU also satisfy the CHEM 1200 requirement.

Statistics does not fulfill the MATH 1010 requirement. MATH& 107 Math in Society does not satisfy the MATH 1010 requirement.

PSYC 3220 curriculum must cover conception/birth to death lifespan.
